

THE ALL NEW
MINK 2.0
SPORTS CAMPER

Combining the intimacy of camping
with the world of luxury travel

LESS IS MORE

Our design philosophy

The **MINK 2.0** is a purpose-built SPORTS CAMPER that delivers more of everything: fun, capability and infinite freedom. The aerodynamic shape, the robust **SOLID SHELL STRUCTURE™** and the AL-KO galvanized steel chassis with its very low center of gravity allows for a safe and stable off- and on-road exploration anywhere in the world.

With the **MINK 2.0** we want to inspire people of all ages to travel safely and comfortably while protected from the elements as they embark on an adventurous discovery of nature. By respecting our **NORDIC DESIGN HERITAGE**, we stay true to minimalism, functionality, craftsmanship, manufacturing quality and robustness in order to combine the intimacy of camping with the world of luxury travel.

ROOM WITH A VIEW

Interior space

The bright and spacious interior with its **panorama glass roof** and large round side door windows makes the **MINK 2.0** the perfect place to rest after long days out and about in nature. The queen size luxury mattress (140x200 cm) fits two adults very comfortably and the canvas bunk bed is loved by children (140x50 cm). A brand new integrated side panel ventilation, a **WEBASTO** heating system (optional) and the ceiling mood light makes you feel at home while stargazing with your loved ones.

COOKING IN NATURE

Open air kitchen

The back of the **MINK** opens up to reveal a **spacious cooking area** with plenty of storage space. Integrated into the high quality countertop is an illuminated 36L ice chest for cold drinks and a storage area with three removable boxes for the **MINK** gas stove with Scandinavian oak wooden panels and cooking supplies. Three larger and easy to clean storage boxes with a **MINK** wood chopping board come standard and the top three shelves are equipped with a robust cargo nets for extra stove away space.
